

# Dejan Popovski

SENIOR AI/ML & FULL STACK ARCHITECT

## ABOUT ME

Senior Software Engineer with over 15 years of experience in full-stack development, specializing in Java, Spring, and AWS. Proven track record in building scalable microservices and leading cross-functional teams in Agile environments. Experienced Staff Lead with a focus on technical excellence, mentorship, and high-quality software delivery.

## JOB EXPERIENCE

### Freelance

September 2025 - Current

#### Senior AI/ML & Full Stack Architect

- Specializing in AI/ML Engineering: Implementing private LLM solutions (Qwen/Llama) using local orchestration tools for enterprise-grade privacy and speed.
- Architecting 'AI CV Creator': A high-demand cross-platform project using React Native and Ollama LLM to automate professional content generation.
- Consulting on AI Strategy: Helping clients integrate intelligent features and Large Language Models into existing web and mobile ecosystems.
- Designing scalable backend architectures and implementing robust CI/CD pipelines with integrated AI agents and automated testing.
